**No Trash Allowed**

Do you love the beautiful landscape of our community? If so, then remember that no trash is allowed! That is, empty cups and food wrappers belong in the trash bin, not on the ground! If you see such materials, pick them up and throw them away. If you need to discard trash, discard it in the bin. A community remains beautiful if we do our part to keep it beautiful!

**Don't Forget To Pay The Rent!**

You live a hectic life, rushing the kids off to school, laboring in your office cubicle, and managing all the mishaps of a ordinary day. Sometimes important items, like paying the rent, slip your mind. We're here to remind you to get it in on time so that you don't incur late fees. Once it's paid, you'll have one less thing to juggle.

**We're In Your Corner!**

If you ever have any questions about our community or any concerns about your lease, don't hesitate to call us, or come into our office. We will do our best to answer your questions, and we are committed to ensuring that your home here is a pleasant one.

**Kids, Kourtesy, and Karefulness**

We love the shrieking sounds of kids playing on the swings, splashing in the water and making up silly games! With that in mind, children and their parents can still watch out for themselves and their neighbors out of kindness, and protection. Parents remind your kids not to skate or ride bikes in the parking lot or walkways. We don't want kids crashing into other residents, or worse, a car! And make sure they don't climb on the trees or shrubbery lining the residential complex, as they can get hurt. Kids, always take your toys back where you found them, and never wander off with a stranger! Parents, keep an eye on your kids -- especially the little ones. Don't let them wander near the swimming pool area. Let's keep children safe while they have fun!

**BIENVENIDOS NUEVOS RESIDENTES**

Todos sabemos que mudandonos a un nuevo apartamento emociona, pero ajustarse a una nueva comunidad es estresante. Nuestro personal esta aqui para introducirle al area ofreciendo: Tiedas de comestibles, Farmacias, las mejores Escuelas del area, asi como los mejores restaurantes y entretenimiento, para por la oficina y recoja esta informacion gracias por escojemos y esperamos que su estadia con nosotros sea larga y que la disfrute!!!!

**Man's Best Friend**

Your furry friends are welcomed in our community! As you walk your dogs, keep them on a leash to avoid loosing them or the possibility of them running out in the street. Also, take a pooper-scooper bag with you in case they need to take care of business.

## Stan Robinson's Most Anticipated MOVIES

Summer Main Dish Salad Recipe

### Quick Tip: Food Tip

Try to buy milk with a sell-by date at least four days away. Once you get your milk home, refrigerate it as soon as possible. In your refrigerator, milk should last up to a week. Eggs can last longer. They are at their best for about three weeks from purchase. Store them in their carton instead of in the door of your refrigerator to keep them as long as possible.

### August 12 is Vinyl Record Day.

The first flat discs, called records, were produced in 1887 to be used in toys.

A vinyl record consists of a disc of polyvinyl chloride plastic, engraved on both sides with a single concentric spiral groove.

The first vinyl records were produced in 1930. Before that, records were made from a brittle substance containing shellac.

The Beatles originally wanted to include a picture of Adolph Hitler on the iconic cover of their Sgt. Pepper's Lonely Hearts Club Band, but removed it at the insistence of Parlophone Records.

Record Industry, located in the Netherlands, is the largest vinyl pressing plant in the world. They can produce over 30,000 records per day.

One of the most valuable vinyl records is "That'll Be Day" by The Quarrymen. Only one copy was made and has always been owned by Paul McCartney. It is valued at \$200,000.

The Rolling Stones released the first album cover not to feature a band photograph with their 1968 album called "Beggars Banquet."

Long-playing records became the prevailing format in 1948, when Columbia Records introduced the first successful 12-inch disc, allowing up to 30 minutes of playing time per side.

A small boy came running into his house through the back door, calling for his mother.

"Who do you think I am?" he asked her.

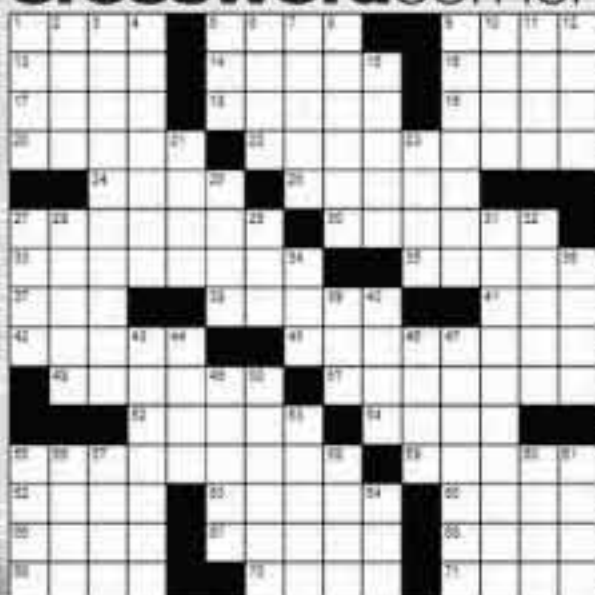

Ready to play along, she replied, "I don't know, who are you?"

"Wow," the little boy exclaimed. "Mrs. Thompson was right! She said I was so dirty, even my own mother wouldn't recognize me."

### Quick Tip: Healthy Living Tip

Green tea could be a key to helping you lose weight. A recent study showed that overweight subjects who were exercising regularly lost three more pounds and seven percent more belly fat when they drank green tea over other beverages with the same calories.

We're deep into summer as the movies, both big and small, make their way to theater screens. For August there's themes that are revisited from previous movies, sequels, and a television series bringing its charm to the big screen. Here are the choices I'm looking forward to seeing!

### Conan the Barbarian

The original 1982 movie that launched the career of Arnold Schwarzenegger and the story of Conan the Cimmerian and his adventures across the continent of Hyboria on a quest to avenge the murder of his father and the slaughter of his village, is revisited and just could be the movie for Jason Momoa, who starred as Ronon Dex in the popular sci-fi TV series 'Stargate Atlantis' (2005-09).

### Final Destination 5

The next installment for those of us who have been following the suspense thriller movies with the central theme of 'cheating death', this time the survivors of a suspension-bridge collapse learn there's no way you can cheat Death.

### The Glee Project

Coming to the big screen, the TV series that has taken hold throughout the nation presents the groundbreaking 10-episode competition series that finds and trains a group of extraordinarily talented performers, who compete against one another to win a guest starring role on 'Glee' with cast members from the television series!

### Rise of the Planet of the Apes

Admittedly this reviewer has been fond of the premise of this story since the first film in 1968 starring the late great Charlton Heston in the title role. Director Tim Burton gave it his special touch in 2001 with Mark Wahlberg starring. The latest retelling has James Franco, who received an Oscar® nomination for last year's '127 Hours', stars as the story set in present day San Francisco about a man's own experiments with genetic engineering lead to the development of intelligence in apes and the onset of a war for supremacy.

### Spy Kids 4: All the Time in the World

For family entertainment, the fourth installment of popular series features a mother who returns to her old profession in order to prevent a villain bent on stopping time. Her profession: she's a retired spy! Writer/director Robert Rodriguez presents the next adventure with Jessica Alba and Antonio Banderas starring.

My movie reviews and interviews will be available throughout the month at [ScreenScene.org](http://ScreenScene.org) and [Examiner.com](http://Examiner.com). Let me know what you think, [Movies@StanRobinson.org](mailto:Movies@StanRobinson.org). That's it for August 2011, we'll do it again for September! To watch the trailers, visit [NCM.com](http://NCM.com). For movie reviews, interviews, and articles visit [ScreenScene.org](http://ScreenScene.org).

Ever wish you could know before you board what the seating will be like in an airplane? Now you can! [SeatGuru.com](http://SeatGuru.com) was launched in 2001 by a frequent flyer, Matthew Daimler, who decided to collect this useful information and share it with other travelers. At [SeatGuru.com](http://SeatGuru.com), you'll find more than 700 airplane seat maps from nearly 100 different airlines. So how can [SeatGuru.com](http://SeatGuru.com) help you? Because you can pick your seat online ahead of time for most airlines, you can do your homework and find the best seat for you, based on the location of the wings, bathrooms, emergency exits, and which seats have more legroom.

## AUGUST 2011 ASTRONOMICAL PHENOMENA

- New Moon: August 28
- First Quarter: August 6
- Full Moon: August 13
- Last Quarter: August 21

The August Full Moon is called the Starurgeon Moon by Native Americans of New England because at this time of the year, there were abundant supplies of this important fish.
